Horseback Trail Rides - 1020 Camp Road, Cocoa FL 32927

See Florida's Natural Beauty on Horse Back

Horseback Trail Rides is a family-owned stable with a horseback tour business located in Cocoa on Florida's Space Coast, 15 minutes from Cocoa Beach and 50 minutes from Orlando and the Theme Parks

Our ranch offers 1½ hour guided horseback trail rides for individuals, families, and larger groups day, all year round (weather permitting).

One of the best ways to see Florida's natural beauty is on horseback. Our trails wander through protected conservation areas, taking you into a diversity of the natural woodland habitats found on the Space Coast and introducing you to one of the most unique environments in the world. We have miles of riding trails through over 2,000 acres of magnificent Florida forest setting, a herd of beautiful, gentle, well-trained horses, and a staff of experienced, friendly, trail guides.

Take time to visit our website at www.floridahorsebacktrailrides.com to find out more about the wonderful variety of plant and wildlife you may experience during your horse ride. The diversity is partly because both temperate (northern) and subtropical (southern) species grow here together. These ecosystems have the greatest number of tree and shrub species per acre of all temperate forests in the continental United States. They also provide homes for other plants and animals. Some of these species occur nowhere else in the world.

You will be enchanted as your trail ride takes you into the shadowy, moist Mesic Hammock with its majestic oaks, draped in Spanish Moss, creating a huge canopy overhead, then, experience the overwhelming beauty of primitive Florida Scrub, Wet Prairie and 'prehistoric like' Hydric (low wet) ecosystems. A journey you will not forget.

Plants and wild flowers that are native to Florida attract various species of butterflies and their larvae (caterpillars), insects, reptiles, and birds. Other animals, including the Eastern Indigo snake, Florida scrub lizard, gopher tortoise, armadillo, white-tailed deer, and bobcat live here.

The Trail Guides are all experienced horsemen. They are friendly, accommodating and knowledgeable about the history, wildlife and ecology of the area.

Horses are assigned based on the riders experience level. Riders with handicaps will be evaluated by the trail boss before being mounted but most mental and physical challenges can be accommodated. You do have the opportunity to jog and lope (trot and canter) your horse. No one has to ride faster than they want to.

We cannot take riders younger than six years old or those who weigh more than 225lbs.

Reservations are required as we need to catch, groom and saddle your horse before each ride. When they are not out on the trail we allow our horses to run freely, to 'be horses' and do what horses do!

Please arrive 15 – 20 minutes before your scheduled horse ride so you can meet your horse and get saddled (the ride times do not include mounting and dis-mounting). Expect to spend at least 2 hours at the Ranch.

The current charge for a One and a Half hour guided trail ride is \$35.00 per rider. We accept VISA, MasterCard, Travelers Cheques and Cash.

All prices and availability of rides are subject to change without notice by Horseback Trail Rides.

Call 321-632-7085 to make a Reservation.
